

We Are Prepared for Summer Storms

**MESSAGE FROM
GENERAL MANAGER
ALAN LESLEY**

SUMMER IS HERE, school is out and families are gearing up for a few months of fun and relaxation. Although summer brings much fun in the sun, it can also bring the occasional severe storm. In the event of a power outage, you can trust that Comanche Electric Cooperative is ready to respond.

The major cause of most power outages is damage to power lines caused by falling trees and branches. Through right-of-way clearing, we work year-round to ensure that power lines in our

service territory stand little risk of being damaged by trees, branches or other types of vegetation.

Despite our best efforts, though, during major storms, damage can occur to transmission stations, substations and power lines. When this happens, our first priority is to safely restore power to as many members as possible in the shortest amount of time.

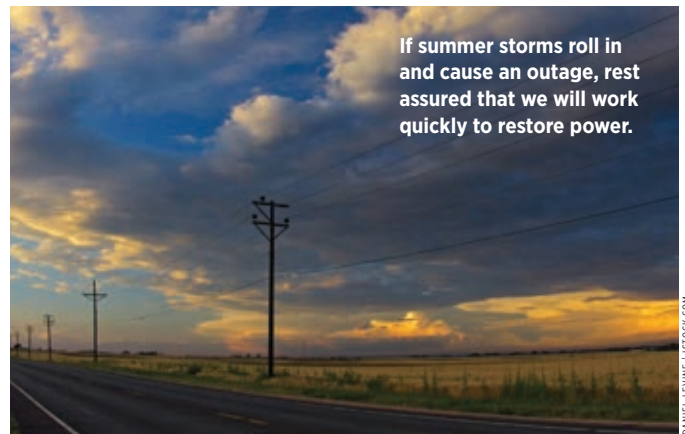

We start by mobilizing our line crews and other critical staff. Every phone line available is used to take your outage report calls. The big problems are handled first—such as damage to transmission lines, which serve thousands of people. These problems must be corrected before we can focus on other areas where more localized damage might have occurred.

Comanche EC's line crews inspect substations to determine

if the problem starts there, or if there could be an issue down the line. If the root of the problem is at the substation, power can be restored to hundreds, possibly thousands of members.

Next, line crews check the service lines that deliver power into neighborhoods and communities. Line crews repair the damaged lines, restoring power to hundreds of people. If you continue to experience an outage, there might be damage to a tap line outside of your home or business. Make sure you notify Comanche EC so crews can inspect these lines.

We will do our best to avoid power outages, but sometimes Mother Nature has other plans. If you experience a power outage, give us a call at 1-800-915-2533. Many times, our system reports the outage to us and crews are dispatched before you call, but it is still helpful to hear from you!

Meet CECA's Newest Team Member

CECA is proud to welcome Mirna Hernandez as the newest member of your cooperative family. Mirna is the customer service representative for CECA's Early and Eastland offices. A Brownwood native, she and husband Valentino have three children, Ashley, Crystal and Caleb. This family of five shares the same passion: "It's a Challenge," an outreach ministry for kids at risk in their community. Mirna's evenings are spent with family, and she enjoys watching her son participate in sports. Her favorite sport to watch is Texas Rangers baseball. If you stop by the Early or Eastland office, please join us in giving Mirna a hearty CECA welcome!
